Public Cloud Services

Eclipsys Case Study

This Not-for-Profit Medical Benefits Provider is headquartered in Moncton, New Brunswick.

1 Why Eclipsys?

- The client wanted to transform its business by moving key business environments to the cloud
- They wanted to reduce their Oracle license spend and more from a CapEx to OpEx model
- Eclipsys was identified as the right partner to enable change management with their team and provide leadership and guidance on how to digitize there was of working
- Eclipsys became the single partner to purchase the cloud through and provide ongoing collaboration for all Oracle negotiations

2 Key Outcomes

- Architecture design and deployment of three EACCCs with HA/DR and multitenant databases using best practices
- Reduction in overall Oracle spend on licensing
- Repeatable migration plan with performance testing and zero downtime for key environments
- Migrations of over 240 database instances
- Customized ExaCC training and expert support to the client's team
- Complete support with our CSP and Managed Services
