Profile Summary

Sleeman

Breweries needed expert support from Eclipsys to deploy, configure, migrate to and train their team on Exadata.

1 **Customer Objective**
- Maximum Availability Architecture (MAA) design and Exadata optimization
- Seamless migration of EBS databases to Exadata
- Ongoing support and DBA Training for the Exadata environment

2 **Solutions**
- 1/8 Rack Exadata deployed and optimized
- Migration of EBS DB and Configuration of MAA architecture (RAC and Data Guard from NA Exadata to remote APAC Exadata)
- Customer-specific training delivered to teams

3 **Outcomes**
- Successful implementation and migration of all environments
- Improved performance for EBS functions, concurrent managers, and key queries
- The enhanced mechanism for testing using Snapshot standby databases

4 **Additional Details**
